# PRESS RELEASE

FOR IMMEDIATE RELEASE

April 30, 2013

**Wound Care Center Recognized for Healing Wounds and Changing Lives**

Grand Lake Health System announced today the Center of Distinction Award, which was given to the Grand Lake Wound Care Center by Healogics Inc., the world’s leading wound care management company. The Center has achieved outstanding patient outcomes for twelve consecutive months, including patient satisfaction over 98%, and 96% wound healing rate within 22 median days to heal, among other quality outcomes.

The Wound Care Center is a member of the Healogics Inc. of over 550 centers, which provides access to benchmarking data and proven experience treating over two million chronic wounds. In 2012, the Grand Lake Wound Care Center provided care for over 225 patients with specialized treatment for chronic and non-healing wounds.

Holly Jacomet, Program Director of the Wound Care Center commented on the award, “Our Wound Care Center heals chronic wounds of patients who might otherwise experience an amputation or other life-threatening conditions. We are proud to provide this specialized and needed service to our community.”

“We’re honored,” said Dr. Lance Bryant, Medical Director of the Grand Lake Wound Care Center. “It is a privilege to be part of a great collaborative effort between the hospital, physicians, and Healogics Inc. Together, we are able to heal patients in our community, helping them get back to living happy, healthy lives.”

The Grand Lake Wound Care Center has offered services to the Grand Lake region since December of 2009. Indications for the Wound Care Center would be any non-healing wound (diabetic foot ulcers, venous, arterial, and surgical), cellulitis, burns, crush injuries, chronic venous edema, and radiation injury. Adjunctive treatments include hyperbaric therapy which is pressurized oxygen treatments effective on multiple wound types. New patients are welcome with no physician referral required.
