LISTENING TO OUR PATIENTS

All the comfort, convenience and efficiency you see around you is driven by expectant and birthing mothers. Patient surveys told us how you wanted to bring your babies into the world. This beautifully designed Birthing Center – assisted by community-wide support – is our response.

The entire Center is designed to welcome families, while keeping an expert focus on mother and the newest family member. Instead of birthing occurring in multiple stations with perhaps multiple staffs, everything and everyone is in one comfortable room.

Relaxing décor, carpeted family area, foldout bed for family members, and nearby nourishment center provide comfort and convenience for all. Each room includes TV, VCR and telephone. The VCR doubles for entertainment as well as for mother's and other family members' education about newborn and infant care.

Mothers can also access the Center's whirlpool – another direct result of patient surveys.

All the comfort, convenience and efficiency you see around you is driven by expectant and birthing mothers.

DESIGNED FOR CARING

JOINT TOWNSHIP DISTRICT MEMORIAL HOSPITAL prides itself for the special care we provide mothers and newborns. Many of our maternity nurses are nationally certified in Maternal and Child Care. The Birthing Center helps our staff perform that care even better. Centrally located supplies and record keeping enable easier coordination, much improved efficiency and better care throughout the birthing process.
