

Phlebotomy—The Growing Health-Care Field

Class registration is going on now for a Short-Term Certificate in this growing field!

Edison State Community College has partnered with **Joint Township District Memorial Hospital** to offer a **Short-Term Certificate in Phlebotomy!**

Take advantage of this great opportunity with a **Phlebotomy Short-Term Technical Certificate**. from Edison State Community College. Classes are being offered at Joint Township District Memorial Hospital starting in January, 2023. Phlebotomists, use various types of equipment and techniques to collect blood samples for analysis. Students wishing to pursue a career working with patients in this growing health care setting will be able to be certified as a phlebotomist after course completion and testing*. Additionally, Edison State is one of only four schools in the state of Ohio accredited to offer this program. *Register now!*

Find out how you can move into a rewarding career starting today!
